

## HIMALAYAN SALT LAMPS & CANDLE HOLDERS

- Amber, White or Grey Colors
- Many Different Sizes; XS-XXL
- Natural Look or Carved Shapes
- Strict "Fair Trade" Adherence In Manufacturing Process
- Looks Amazing & Calming!
- Boosts Energy & Relieves Stress
- Helps Alleviate Depression
- Releases Negative Ions Proven To Kill Bacteria, Mold & Fungus

## HIMALAYAN SALT Lamps

Are able to....

**Purifier the Air**- removes bacteria, dust, allergens, smoke & mold from the air.

**Reduce Stress & Depression**- emits uplifting, positive charge of energy.

**Feng Shui**- lamps are visually appealing & calming. They assist in opening blocked energy in your home or workplace.

**How they work**- Himalayan salt lamps, when heated with a candle or light bulb, emit negative ions which binds to air pollutants (positive ions). This causes them to lower to the ground level, leaving the air fresh. Negative ions are believed to produce beneficial biochemical reactions in our bloodstream that increase levels of serotonin.
